i scream for gelato!

With a rotating menu of over 50 unique and classic flavors, it's hard to resist the tantalizing creations of Il Laboratorio del Gelato. From the man who brought us Ciao Bella, Jon Snyder has created a new brand of gelato even better than the original, concocting the perfect recipes and techniques in his ice cream "lab." With a list of ingredients including local organic fruits and herbs from watermelon to mint, the finest nuts from Italy and gourmet Scharffen Berger and Valrhona chocolates, it is no wonder these treats are simply irresistible. We certainly enjoyed them and so can you. Visit www.laboratoriodelgelato.com to have your favorite flavors shipped to you. —RM
